1. GTM Fundamentals

What is Go-to-Market?

A Go-to-Market (GTM) strategy is your plan for launching a product or entering a new market. It answers:

- **Who** are your target customers?
- **What** problem do you solve?
- **How** will you reach them?
- **Why** should they choose you?

The GTM Framework

GTM STRATEGY		
MARKET	PRODUCT	DISTRIBUTION
- Segmentation	- Positioning	- Channels
- Targeting	- Messaging	- Sales Model
- Sizing	- Pricing	- Partnerships

GTM Motions

Motion	Description	Best For
Product-Led	Product drives acquisition	Self-serve, freemium
Sales-Led	Sales team drives deals	Enterprise, complex
Marketing-Led	Marketing generates demand	Mid-market, SMB
Community-Led	Community drives adoption	Developer tools, B2D

2. Market Analysis

Market Segmentation

Segmentation Criteria:

Criteria	B2B Examples	B2C Examples
Firmographic	Industry, size, revenue	Demographics
Geographic	Region, country, city	Location
Behavioral	Usage patterns, buying behavior	Purchase history
Psychographic	Values, priorities	Lifestyle, interests

Ideal Customer Profile (ICP)

ICP Template:

IDEAL CUSTOMER PROFILE

Company Characteristics:

- **Industry:** [e.g., SaaS, Fintech]
- **Size:** [e.g., 50-500 employees]
- **Revenue:** [e.g., \$5M-\$50M ARR]
- **Geography:** [e.g., North America, MENA]
- **Technology:** [e.g., Uses Salesforce, AWS]

Buyer Persona:

- **Title:** [e.g., VP of Engineering]
- **Reports to:** [e.g., CTO]
- **Goals:** [e.g., Ship faster, reduce bugs]
- **Challenges:** [e.g., Legacy systems, talent]
- **Watering holes:** [e.g., Hacker News, Twitter]

Buying Process:

- **Decision makers:** [Who signs?]
- **Influencers:** [Who recommends?]
- **Budget:** [Where does it come from?]
- **Timeline:** [How long to close?]

TAM/SAM/SOM Analysis

Definitions:

- **TAM** (Total Addressable Market): Everyone who could buy
- **SAM** (Serviceable Addressable Market): Those you can reach
- **SOM** (Serviceable Obtainable Market): Realistic near-term target

Calculation Methods:

1. **Top-Down:** Industry reports $\times$ your segment %
 2. **Bottom-Up:** # of customers $\times$ average deal size
 3. **Value Theory:** Value delivered $\times$ willingness to pay
-

3. Positioning & Messaging

Positioning Statement

Template:

For [target customer] who [need/pain point], [product name] is a [category] that [key benefit]. Unlike [competitors], we [key differentiator].

Example:

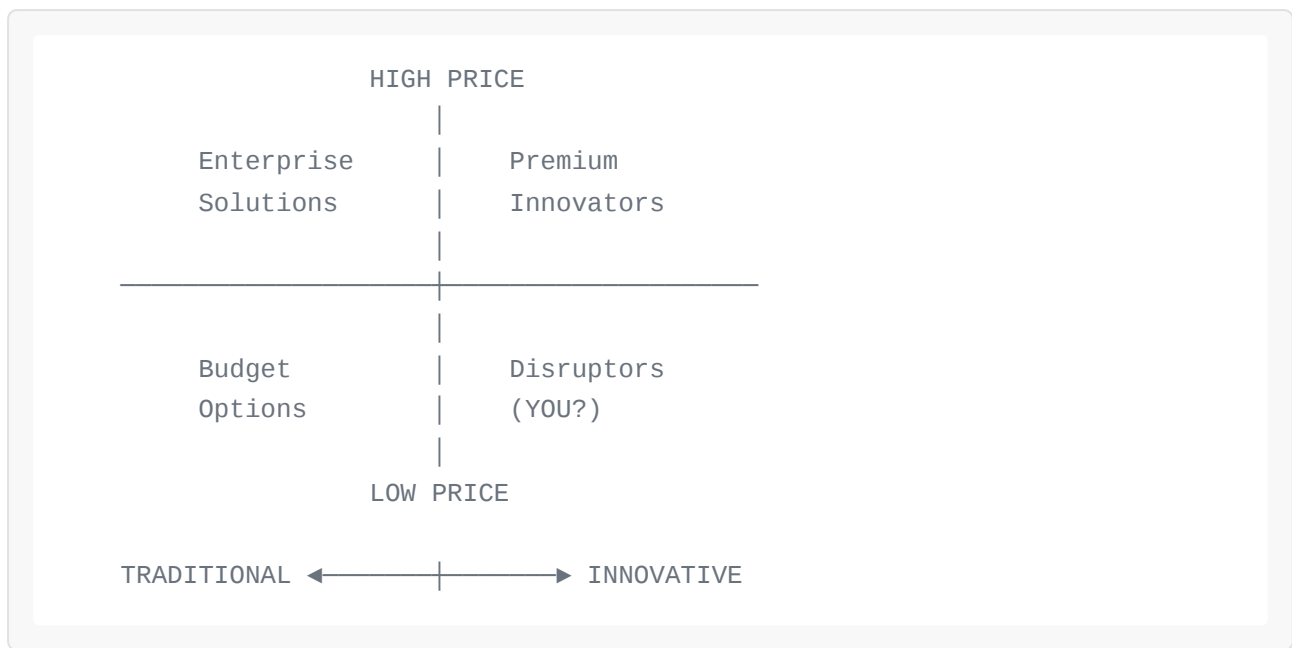

For engineering teams who struggle with deployment complexity, Vercel is a frontend cloud platform that enables instant deployments. Unlike traditional hosting, we provide zero-config deployments with automatic scaling.

Messaging Framework

Level	Purpose	Example
Tagline	Memorable hook	“Ship faster”
Value Prop	Core benefit	“Deploy in seconds, scale automatically”
Proof Points	Evidence	“Used by 100K+ developers”
Features	Capabilities	“Automatic HTTPS, global CDN”

Competitive Positioning

Positioning Matrix:

4. Pricing Strategy

Pricing Models

Model	Description	Best For
Freemium	Free tier + paid upgrades	PLG, high volume
Usage-Based	Pay per use	API, infrastructure
Per-Seat	Price per user	Collaboration tools
Tiered	Good/Better/Best	Most SaaS
Flat Rate	Single price	Simple products

Pricing Psychology

Key Principles:

1. **Anchoring:** Show higher price first
2. **Decoy Effect:** Add option to make target look better
3. **Price Endings:** 99*vs*100
4. **Bundling:** Combine features for perceived value

Value-Based Pricing

Steps:

1. Identify the value you create
2. Quantify that value in dollars
3. Price at 10-20% of value delivered
4. Test and iterate

Example:

- Your tool saves 10 hours/week
 - Engineer costs \$100/hour
 - Value = $1,000/week = 4,000/month$
 - Price = 400–800/month
-

5. Channel Strategy

Channel Options

Direct Channels:

- Outbound sales
- Inbound marketing
- Product-led growth
- Events and conferences

Indirect Channels:

- Channel partners
- Resellers
- Marketplaces
- Affiliates

Channel Selection Framework

Factor	Weight	Channel A	Channel B
CAC	25%	8 ₁₀	6 ₁₀
Scalability	25%	7 ₁₀	9 ₁₀
Control	20%	9 ₁₀	5 ₁₀
Speed	15%	6 ₁₀	8 ₁₀
Fit	15%	8 ₁₀	7 ₁₀
Total	100%	7.5	7.1

Sales Model Selection

ACV	Model	Team
<\$1K	Self-serve	Product, Growth
1K–10K	Inside sales	SDRs, AEs
10K–100K	Field sales	AEs, SEs
>\$100K	Enterprise	Named accounts

6. Launch Execution

Pre-Launch Checklist

4 Weeks Before:

- ☐ Finalize positioning and messaging
- ☐ Create launch assets (website, demo, docs)
- ☐ Brief internal teams
- ☐ Prepare press/analyst outreach

- ☐ Set up tracking and analytics

2 Weeks Before:

- ☐ Test all systems
- ☐ Train sales and support
- ☐ Seed content with influencers
- ☐ Prepare launch day communications
- ☐ Plan contingencies

Launch Day:

- ☐ Publish website updates
- ☐ Send announcements
- ☐ Post on social media
- ☐ Monitor for issues
- ☐ Engage with community

Launch Tiers

Tier	Effort	Activities
Tier 1	Major	Press, event, campaign
Tier 2	Medium	Blog, email, social
Tier 3	Light	Changelog, in-app

Launch Amplification

Channels:

1. Product Hunt
2. Hacker News
3. Twitter/X
4. LinkedIn
5. Reddit (relevant subreddits)

6. Industry newsletters

7. Podcasts

8. Webinars

7. Measuring Success

GTM Metrics

Awareness:

- Website traffic
- Social mentions
- Press coverage
- Share of voice

Acquisition:

- Leads generated
- Sign-ups
- Demo requests
- Trial starts

Activation:

- Activation rate
- Time to value
- Feature adoption
- NPS

Revenue:

- Pipeline generated
- Win rate
- Deal size

- Sales cycle length

GTM Dashboard

GTM DASHBOARD		
TRAFFIC	LEADS	REVENUE
10,000/mo	500/mo	\$100K MRR
+25% MoM	+30% MoM	+20% MoM
CAC: \$500	LTV: \$5,000	LTV:CAC: 10:1

Iteration Framework

Weekly:

- Review leading indicators
- Adjust tactics
- A/B test messaging

Monthly:

- Analyze channel performance
- Review win/loss data
- Update forecasts

Quarterly:

- Strategic review
 - ICP refinement
 - Pricing analysis
-

GTM Templates

One-Page GTM Plan

COMPANY: _____ DATE: _____

TARGET MARKET

ICP: _____

Market Size: TAM \$_____ SAM \$_____ SOM \$_____

POSITIONING

For [customer] who [problem], we are [category] that [benefit].
Unlike [competitor], we [differentiator].

PRICING

Model: _____ Price Point: \$_____

CHANNELS

Primary: _____ Secondary: _____

GOALS (90 days)

1. _____
2. _____
3. _____

KEY METRICS

- Traffic: _____
- Leads: _____
- Customers: _____
- Revenue: \$_____

Key Takeaways

1. **Know your customer** better than they know themselves
2. **Position clearly** against alternatives
3. **Price for value**, not cost
4. **Choose channels** that match your motion

5. **Launch is just the beginning** - iterate constantly

6. **Measure what matters** and act on data
